

Figure 2-12
Mile 95 Jaralosa South

Jaralosa Arroyo enters the west side of the river near mile 96.5 through a channel, which diverted flow from its original route. The channel conveys the combined flow of Jaralosa Arroyo and Berrenda Creek both of which have dams. Despite the dams, the arroyo deposits sediment that creates islands in the river. A former meander is located on the east side.

Integrated USIBWC Land Management Alternative

Point Project Measures	ID	#	Area (ac)
Native vegetation planting	95A	2	5.1

Targeted River Restoration Alternative

Point Project Measures	ID	#	Area (ac)
Open former meander	95C	1	5.1
